## ANNUAL REPORT

Academic Year 2025–26

*"Dream. Dare. Do. Fall, but rise wiser. Persist — and success will follow."*

## 1. Introduction

---

This report presents a comprehensive overview of the year's highlights — spanning academics, co-curricular activities, student development, staff capacity-building, and community engagement. It is a reflection of our unity, teamwork, and shared vision. More than a formality, this meeting is an opportunity to pause, appreciate, and move forward together with clarity and confidence.

## 2. School Growth & Milestones

---

Eight years ago, our CBSE wing commenced with 150 students. Today, we are proud to have grown into a strong family of more than 650 students. This remarkable progress reflects not only growth in numbers but also growth in confidence, quality, and commitment — all of which are strengthened through our collective teamwork.

Over the past months, we have accomplished many milestones — in academics, sports, cultural activities, and various competitions. These achievements are not the result of individual effort alone, but of teamwork, planning, and mutual support.

The year began with our newly elected cabinet members taking their oath, stepping forward with dedication and a strong sense of responsibility. They pledged to lead with sincerity and to inspire every student to participate wholeheartedly in all activities throughout the year.

We paid heartfelt Shradhanjali to our esteemed founder, K. V. Ashwath Narayan, and observed the occasion with reverence. The day was also marked by the celebration of Hindi Day and Khadi Day, honouring our cultural values and traditions.

## 3. Co-Curricular and Academic Enrichment

---

### 3.1 Cultural and Language Celebrations

In July, the vibrant celebration of Supraja brought together students from Grades 1 to 10. They participated enthusiastically in a variety of activities, showcasing their talents and team spirit. The school also celebrated Language Days including French, Sanskrit, Hindi, and Kannada Days, honouring our multilingual heritage. Music Day and Yoga Day were observed with active student participation.

### 3.2 Science Open Day

In remembrance of C. V. Raman, a Science Open House was organised on National Science Day. Students from Grades 1 to 8 showcased their models. The presentations were excellent, reflecting the creativity and hard work of all participants.

### 3.3 Sports

Sports are a cornerstone of student life at our school. During sports classes, students actively participate in various events and competitions. The excitement culminates in our grand Sports Day celebration, which concludes with impressive and synchronised displays.

Our students also actively participated in various sports competitions organised by different organisations, and many returned with trophies. One student won a silver medal in skating at the national level in the CBSE Games — a remarkable achievement for our school.

### 3.4 Meet & Greet — Grade 10 Farewell

A heartfelt farewell Meet-and-Greet for Grade 10 was thoughtfully organised by the students of Grade 9. The event was truly touching and created beautiful memories for everyone.

### 3.5 Promotional Events

At the beginning of the academic year, promotional events for Grade 1 were conducted, celebrating Yoga and Music Day by our primary school students. A chess tournament hosted by SVM in support of college admissions was also organised effectively. The 'Little Heart' promotional events for Pre-Primary were carried out smoothly.

## 4. Experiential Learning and Educational Visits

---

Field trips are among the most enjoyable and enriching parts of our academic year, where children learn while having great fun. This year, students were taken on educational visits to:

- The Planetarium
- Rainwater Harvesting Sites
- VITM (including a Quiz, Talks, and H2O Park — Rainwater Harvesting)
- ISRO
- Azim Premji University

Students also participated in the Kannada Rajyotsava Parade, connecting with our state's cultural identity, and one student qualified for the State Level Camp through the VVM Scholarship Exam.

## 5. CBSE Activities and Student Development

---

Our students actively participated in various CBSE activities, including:

- Budding Author
- Vande Mataram Activities
- Constitution Day — Preamble
- CBSE Games
- SAFAL Assessments (Grades 6 and 9, as per CBSE guidelines)

All student contributions were regularly updated and showcased on the CBSE portal.

Students from Grades 3 to 10 collectively contributed ₹1,33,337 towards HelpAge India, demonstrating their generosity and social responsibility — a powerful testament to the compassion nurtured alongside academics.

## 6. STEM Programme and External Enrichment

---

The STEM programme was an enriching and dynamic initiative that provided students with hands-on exposure to electronics, astronomy, aeromodelling, and robotics. The programme culminated in the successful completion of innovative student projects. Those enrolled in astronomy were given a special opportunity to experience sky gazing, which left them mesmerised by the beauty of the night sky. Parents also actively participated, making the experience even more meaningful.

Other external programmes integrated into the curriculum included Qshala, Karate, SAPA Dance, and Music, encouraging enthusiastic participation from students.

Apart from in-school activities, students also participated in external platforms such as Philately, various SOF Exams, the Ganith Challenge, and Spell Bee competitions.

## 7. Academics and Student Well-Being

---

Alongside co-curricular activities, academics progressed hand in hand, with learning made engaging and effective through various interactive activities. Regular tests, examinations, and remedial classes were conducted from the start of the year, and parent-teacher meetings were held consistently to support each child's growth.

Students were shortlisted for the Resource Room to address learning gaps, receive focused attention, and keep parents informed of their progress. Additionally, regular counselling sessions were conducted by our counsellor, and sessions on first aid, health, and hygiene were organised by paramedical staff to promote overall student well-being.

Our 4th batch of students is currently appearing for their board examinations. They have completed four papers, with two remaining. Our teachers are overseeing the examinations as invigilators and have begun the evaluation process from 2nd March. For better preparation and improved results, 5th batch Grade 10 classes commenced from 23rd February and will continue until 7th April.

## 8. Staff Development and Leadership

---

To enhance teaching skills, our teachers actively participated in both online and offline capacity-building programmes (CBP) on various topics. One such programme on Mental Health and Well-Being was exclusively organised at our school. We sincerely thank our Director Ma'am for supporting and sending our teachers to attend offline training courses held across the year.

Our Director and Principal attended the 31st and 1st International Conference of Sahodaya Schools in Dubai, while the Vice Principal represented our school at the Hyderabad Conference on Excellence and Innovation in School Leadership: Curriculum and Pedagogy. We are grateful to Ma'am for the opportunity to participate in these enriching professional events.

Additionally, our school had the opportunity to host a workshop for teachers of Grades 11 and 12 from other schools, focusing on effective teaching strategies in Economics.

## 9. Conclusion

As we reflect on a year of remarkable achievement and unwavering commitment, we close this report with three simple yet powerful principles that will guide us forward:

- Discipline in Action
- Excellence in Effort
- Respect in Relationships

If we practise these consistently, success will naturally follow. Together, we can reach greater heights and make our institution a true source of pride and inspiration.

**Wishing everyone a wonderful year ahead.**
